DATE MAILED: 12/12/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

sf

Advisory Action Before the Filing of an Appeal Brief	Application No. 10/085,222	Applicant(s) KRAMER ET AL.	
	Examiner Saba Tsegaye	Art Unit 2616	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 21 January 2006 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☐ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:
- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
- b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.
- Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☒ The Notice of Appeal was filed on 21 November 2006. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
- (a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
- (b) ☐ They raise the issue of new matter (see NOTE below);
- (c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☐ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
- The status of the claim(s) is (or will be) as follows:
- Claim(s) allowed: _____.
- Claim(s) objected to: _____.
- Claim(s) rejected: _____.
- Claim(s) withdrawn from consideration: _____.

AFFIDAVIT OR OTHER EVIDENCE

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:
See Continuation Sheet.
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s). _____
13. ☐ Other: _____.

DORIS H. TO
SUPERVISORY PATENT EXAMINER
TECHNOLOGY CENTER 2600

Art Unit: 2616

Continuation of 11, does NOT place the application in condition for allowance because:

Applicant admitted, “Willard teaches a scheduler can be implemented in hardware”, however, Applicant argues, “Willard fails to teach or suggest that a hardware-implemented scheduler can be advantageously combined with a software-implemented interval computation element external to the hardware-implemented scheduler”. Examiner respectfully disagrees with Applicant contention. Willard clearly teaches that ***a scheduler may be implemented in software, firmware, hardware or a combination thereof***. Furthermore, it is respectfully submitted that the rejection is based on the combined teaching of the Fan (Boland) and the Willard patents. Fan discloses a flexible and scalable architecture and method that implements **dynamic rate** control scheduling in an ATM switch (see Fan col. 3, lines 1-8). Boland discloses a method of regulating the transfer of ATM cells to maintain **rate precision** and provide **flexibility for dynamically adjusting the rates** at which cells are transferred. Those skilled in the art will know that various functions are performed by software and/or hardware. Therefore, to add software scheduler or a combination of software and firmware in the system of Fan or Boland would provide a flexible architecture.

Applicant, further, argues (Remarks, page 4) “Fan fails to teach or suggest the limitation of claim 1 relating to a particular location in the time slot table being assigned to one or more of the transmission elements as a function of both a current time and the transmission interval”. Examiner respectfully disagrees. Fan clearly discloses this limitation, such as; timestamps for scheduling/rescheduling are determined by the use of the most recently computed value of the dynamic rate R. A timestamp is calculated on the basis of the dynamic rate to schedule/reschedule a queue. More specifically a timestamp for scheduling is given by max

Art Unit: 2616

($TS+1/R$, CT) where CT is current time (see also column 3, lines 59-64). Furthermore, the instant specification discloses that the transmission interval is defines that **rate** at which a transmission element is permitted to transmit from the time slot table (see instant specification page 9, lines 26-27).
